

Frank M [REDACTED] West Park, FL

➤ NIMS 100, 200, and 700 Certified

## ABOUT MYSELF

In my 44 years of life, I grew up in Arizona around the lakes and dams. I've always loved the water. I spent many years in the housing trades, military, corrections, and security services, and a mix of law enforcement. These experiences have enhanced my ability to be a leader and a team player in almost any situation. I am skilled in several trades such as A/C, basic repairs of the ships, plumbing & electrical, and scuba equipment. I have also gained knowledge in investigation techniques, effective communications, and efficient reporting (both daily and special reporting).

After several years in those trades, I sought to make a change for my family and myself. I attended commercial diving school and came to work in Florida as a commercial diver. During my time here, I've gained vast knowledge of the ocean and of ships.

I have spent a lot of time as a supervisor managing crews, work forces, and task management. I am going to be upgrading my license to 200-ton masters in this coming year (2025).
