

RYAN

YACHT CAPTAIN, CREW MANAGER

OBJECTIVE

I'm a professional, adept and passionate Mariner seeking to apply my skills in the most meaningful way possible. The efficient, safe and effective operation of passenger vessels is my absolute passion.

From a young age growing up on the water always carried with it an inherent sense of purpose and responsibility for me. My family's first boat was a 26' Proline name Sweet Lou. We took her all over the bays and inlets of the Northeast. Naturally, when it came time to choosing a career path, it was my immediate desire to provide the same great experiences to others and care for the machines and personnel that make it possible.
