ABOUT ME

Growing up on a 40-acre quarter horse farm I was introduced to daily chores and responsibilities at a young age. A strong work ethic was instilled by both my mother and father. Summer of 2010 I was introduced to boating where I fell in love with the water and all the activities that go with it. Summer of 2012, I lived on my parents 30 Carver cruiser for a season. This experience taught me the value of packing light. I've been very fortunate to travel extensively throughout the Caribbean and Europe, choosing a career in yachting is a perfect fit for me, and I hope to be a perfect fit for you
