**Location:** Nassau, Bahamas  
**Phone:** [REDACTED]  
**Email:** [REDACTED]  
**Passport:** Bahamian  
**Visas:** Schengen Exemption, B1/B2 [REDACTED]

### **PROFILE**

My name is William [REDACTED] I'm seeking to transition in the Private sector after 15 years of serving in the military and the citizens of the Bahamas. From Protecting the most prominent persons of the Bahamas to rescuing persons caught in hurricanes throughout the entire Bahamas. I now believe I can say that I've pretty much done it all, and I've done my best.

I'm organized, disciplined in areas of managing supplies, securing equipment and safety gear, drafting voyage plans overseeing crew duties, craft operations from anchoring to docking, and I enjoy making the effort to help bring smiles to faces. I've also done freelance work as well as delivery mate for voyages between Nassau and the Florida area and also from Turks and Caicos to Nassau. Also I've served as a part time mate for a few local commercial shipping vessels from Nassau, with destinations of Freeport, Bimini, Andros, Chub Cay, Georgetown Exuma, Highborne Cay, Staniel Cay, Long Island, Ragged Island and Great Inagua.

My greatest passion is simply being at sea and now I'm looking for the best opportunity to expand my horizon. My main goal is to earn, learn and study more so that i am able to achieve YM Oceans license.
