Seeking a Role that Combines Technical Expertise and a love for the water. I am a seasoned Captain with over twenty years of experience in yacht engineering, estate management, and racing ventures. My expertise includes managing multimillion-dollar refits, overseeing East Coast deliveries, and demonstrating a resilient leadership style. I am eager to bring my skills and passion for being on the water, to a new role.

WORK EXPERIENCE

M/Y [REDACTED] 96' BROWARD

DEC 2023 - PRESENT

Captain/Engineer

- Responsible for all aspects of vessel operation including navigation, mechanical oversight, safety practices, procedures, fueling and regulatory compliance.
- Managed coastal and international itineraries, including long-range passages, anchorage planning, and port clearances.
- Responsible for hiring and managing crew, assigning daily operational and service tasks, overseeing crew documentation and coordinating travel logistics and training
- Organizing travel for vessel including dockage arrangements, Customs documentation and correspondence
- Knowledgeable in all of vessel software
- Oversaw shipyard periods and refits at Newport Shipyard, Lauderdale Marine Center and Rybovich North & South yard. Liaising with contractors and surveyors to ensure timely and budget conscious project completion.
- Family-run program, leading a team with responsibilities spanning the entire East Coast, Florida, Ocean Reef & Bahamas
- Managed all aspects of the sale of the vessel during the Palm Beach Boat Show with HMY
- Remained with vessel throughout the full donation and ownership transfer process to a 501(c)(3) foundation. Continues to consult with the foundation and brokers during the vessel's current sales process, ensuring smooth logistics and accurate vessel representation.
