## ABOUT FOREST

As a live aboard Solo Captain I feel it is important to run an efficient program on budget that keeps all systems up to date and running smoothly and thereby keeping costs down and the yacht always available to the owner when they wish to use it.

I have worked in nearly every facet of a successful yacht program both on the exterior and interior operations.

By focusing on giving the highest standard of hospitality to the owners and their guests, a strong and trusted relationship can be developed.

Good communication and well prepared training of crew and their duties with everyone having a keen understanding of hospitality and service at a high level provides the perfect foundation to build a great program with trips and itineraries that create memorable lifetime experiences and enjoyment for owners and their guests.

## REFERENCES

██████████

I grew up sailing in elementary school in Annapolis, MD. Throughout the years I've had rowboats, bow riders, cabin cruisers, and several sailboats. I purchased my current vessel, a 31' sloop, in Long Island, NY, January 2020. Refit & sailed solo to Miami, FL and worked as a Captain, sailed north to MA solo then back to Miami solo and am working as a captain again. I am an expert navigator, but mostly enjoy deliveries and day charters.
