## STEWARDESS

 FORT LAUDERDALE

Seeking a Stewardess role on a 30m+ Motor Yacht. For the last 5 years I've owned a private mobile bar service, running every part of a guest experience from setup to cleanup, including the parts most people don't notice. I've also been in PR handling high-profile clients, where the whole job was anticipating what someone needed before they asked. For the past 10+ years hospitality is my background and I bring an aesthetic eye, useful for owners and guests who speak it. I'm reliable, hands-on, and used to wearing every hat on a small team. I'm looking for a long-term position with a crew that takes pride in the work and a program where I can put what I've already built to work on water.
