HOBBIES AND INTERESTS

I am a naturally positive and adventurous person who finds beauty in the world around me and genuinely enjoys making the most of every experience. Growing up around my parents' watersports hotel, I was always eager to help and learn, gaining hands on skills in everything from cleaning and maintenance to guest service and watersports operations.

I love travelling, challenging myself, learning new skills and embracing new experiences. I have a strong connection with the ocean and nature, I spend all the time I can snorkelling, scuba diving, surfing, kitesurfing, freediving, sailing, exploring remote destinations and marine life. I have a genuine love for animals and children, and I enjoy bringing the same enthusiasm and positive energy into everything I do. I also enjoy playing piano, painting and discovering new creative interests.
